

**SELEZIONE N. 368/2022**

**TRACCIA 1**

**Quesito nr. 1**

The candidate receives a request for information from a researcher of the University of Trento about available funding opportunities at the national and European level for his/her fundamental research activity (no clinical impact in the short term) in the biomedical field to strengthen his/her scientific independence and autonomy. The candidate is requested to describe: 1) the relevant funding programmes, and 2) the proposed actions to address the researcher's request.

**Quesito nr. 2**

The candidate is requested to describe how to design and develop a European collaborative project, as the coordinator operative unit, with particular reference to the excellence section of the proposal.

**Quesito nr. 3**

The candidate receives a request for information from a researcher of the University of Trento to participate in a call for a Postdoctoral Fellowship within the Marie Skłodowska-Curie Actions (MSCA-PF) on the Horizon Europe programme. The candidate is requested to describe the most relevant elements to address in the impact section of the proposal.

**SELEZIONE N. 368/2022**

**TRACCIA 2**

**Quesito nr. 1**

The candidate receives a request for information from a researcher of the University of Trento regarding available funding opportunities at the national and European level for his/her research activity in the field of life sciences with clinical translational potential to strengthen his/her scientific independence and autonomy. The candidate is requested to describe: (i) the relevant funding programmes, and 2) the proposed actions to address the researcher's request.

**Quesito nr. 2**

The candidate is invited to illustrate how to design a European collaborative project proposal, as the coordinator operative unit, with particular reference to the development of deliverables and milestones.

**Quesito nr. 3**

The candidate receives a request for information from a researcher of the University of Trento to participate in a call for a Postdoctoral Fellowship within the Marie Skłodowska-Curie Actions (MSCA-PF) on the Horizon Europe programme. The candidate is requested to describe the most relevant elements to address in the excellence section of the proposal.

**SELEZIONE N. 368/2022**

**TRACCIA 3**

**Quesito nr. 1**

The candidate receives a request for information from a researcher of the University of Trento regarding available funding opportunities at the national and European level for his/her research activity in the biotechnology field with potential entrepreneurial implications to strengthen his/her scientific independence and autonomy. The candidate is requested to describe: (i) the relevant funding programmes, and 2) the proposed actions to address the researcher's request.

**Quesito nr. 2**

The candidate is requested to describe how to design and develop a European collaborative project, as the coordinator operative unit, with particular reference to the impact section of the proposal.

**Quesito nr. 3**

The candidate receives a request for information from a researcher of the University of Trento to participate in a call for a Postdoctoral Fellowship within the Marie Skłodowska-Curie Actions (MSCA-PF) on the Horizon Europe Programme. The candidate is requested to describe the most relevant elements to address in the implementation section of the proposal.
